

# Working Together to Control Noxious Weeds

- Noxious weeds out compete native vegetation for resources ruining wildlife habitat and rangeland grasses.
- The losses resulting from noxious weed infestations can be staggering, costing millions of dollars in the state due to lost production.
- The business of noxious weed control is everyone's concern and their control is to everyone's benefit.
- Scouting for new invasives moving into Nebraska. Early Detection and Rapid Response (EDRR) is the most cost effective method of managing new invasive plants.
